

# ModES seminars and events

Below you can find a schedule of our seminars, a list of conference websites, a list of interesting websites,...

ModES team has now an online calendar to share its events (PhD defense, Seminars,...) ! For the ones using Zimbra, ask Adèle for sharing it.

Seminars are held **between 9:30 AM and 10:30 AM on Mondays**, 20 min talk is enough. The talk can be about results, open questions, rehearsals, interesting articles, problems you are dealing with, some teaching (manual, presentation of interesting software, programming, Phys-Chem basics, etc). It would be nice if each seminar ends with a **final slide being an open question** and not a conclusion...

**Zakaria** is responsible for seminar's organization this year 😊
